

UDAY SINGH RANA

📅 3.5+ Yrs. Exp. | 👤 Associate | 📞 +917017020848 | ✉ udayrana0712@gmail.com | 🔗 linkedin.com/in/udayyrana | 🌐 Portfolio

Professional Summary

Highly analytical .NET Full Stack Developer with 3.5+ years of experience building scalable enterprise applications using C#, ASP.NET Core, Web API, ReactJS, Entity Framework Core, LINQ, and SQL Server. Experienced in developing RESTful APIs, microservices, and modernizing legacy systems into cloud-ready solutions. Hands-on experience with Azure DevOps, CI/CD pipelines, Agile/Scrum, and enterprise integrations. Strong understanding of OOP, SOLID principles, dependency injection, authentication/authorization, and clean code practices. Recognized with the ACE Award for technical ownership and high-quality delivery.

Technical Skills & Certifications

Programming Languages: C#, Python, Java

Backend Technologies: ASP.NET Core, .NET Core, Web API, Entity Framework Core, LINQ

Frontend Technologies: ReactJS, Redux, React Router, HTML, CSS, Bootstrap

Database & Cloud: SQL Server, Azure DevOps, Azure Service Bus, Azure API Management, CI/CD

AI & Developer Tools: GitHub Copilot, MS AI-Search, Visual Studio, VS Code, Git/GitHub, Postman

Practices: REST APIs, OOP, SOLID Principles, Agile/Scrum

Experience

Associate (.NET Full Stack Developer), Accenture Solutions

Jun 2024 – Present

Gurugram, India

ASP.NET, ReactJS, SQL, Azure DevOps

- Recipient of the **ACE Award** for outstanding performance and engineering contributions to business-critical systems.
- Designed and developed RESTful APIs and microservices using ASP.NET Core, improving system scalability and performance.
- Built end-to-end full-stack solutions using .NET Core and ReactJS, handling complex business logic and responsive UI components
- Led migration of **12+ integration** services from webMethods to MuleSoft, reducing operational complexity.
- Integrated third-party APIs and enterprise systems, enabling seamless and reliable data exchange across platforms.
- Implemented XML-to-JSON transformations to modernize legacy service communication.
- Developed reusable C# models using OOP principles for optimized serialization/deserialization of high-volume API payloads
- Configured automated Azure DevOps CI/CD pipelines to streamline multi-environment deployments and eliminate manual code shipping

Programmer Analyst, Cognizant Technology

Feb 2023 – Jun 2024

Chennai, India

.NET, Python, Unix

- Engineered optimized Python data processing workflows to clean and transform enterprise datasets of **2M+ records**, automated duplicate removal, and improved script execution **efficiency by 40%**.
- Designed and implemented Unix automation scripts to automate recurring operational tasks, enhancing process efficiency and gaining positive **recognition from business stakeholders**.

Projects

E-Commerce Web API | ASP.NET Core, Entity Framework Core, SQL Server

- Built secure backend RESTful APIs using ASP.NET Core; engineered custom JWT-based authentication modules and granular role-based client authorization systems.

Tomato – Food Ordering Application | ReactJS, React Router, React Context

Live Demo

- Developed a responsive front-end user experience featuring dynamic multi-criteria cuisine filters, global state-based cart management, and fluid page routing.

LinkedIn Clone | ReactJS, Redux, Firebase

Demo Video

- Programmed a modular social networking interface using Redux for centralized client state control and integrated Firebase OAuth for secure Google Sign-In protocols

Certifications

- Microsoft Certified: Azure Fundamentals (AZ-900)
- Microsoft Certified: Azure AI Fundamentals (AI-900)

Education

KIET Group of Institutions

Bachelor of Technology (B.Tech)

August 2018 – June 2022

Ghaziabad, Uttar Pradesh
